

PERFORMANCE FINANCE

Unleashing your capital's potential

A message from Stuart Burn at **Performance Finance**

Performance Finance is absolutely delighted to have been unanimously approved as a new affiliate by the Sight Care Board.

Our passion for providing finance excellence to independent opticians is now available to those forward thinking members of Sight Care.

Many of you will have dealt with us in the past whilst others will no doubt have seen us at the optical shows or in the magazines.

For those of you that are new to Performance Finance we can promise not only extremely competitive finance for equipment, I.T. and re-fits but also facilities that can accelerate tax breaks and spread VAT.

Our ability to make your money work as hard as possible is our key strength. This coupled with simple explanations of income tax and VAT issues ensures our clients maximise the benefits of every £1 they invest in new equipment and technology.

Please speak to us about any investment program you are planning from a new PC to an OCT.
