Medmont Meridia Professional

TAKING AWAY THE GUESS WORK – FOR THE BEST FIT EVERY TIME

When investing in a corneal topographer consider your biggest return on investment is specialist bespoke contact lenses including Ortho-k. So take the guess work out and provide your patients with the best fit every time and minimise your non tolerances. Medmont Topographers, widely accepted as the gold standard.

The only Placido Ring Topographer that measures from Limbus to Limbus for **far more real coverage** and a **standard deviation of less than 2µm** providing unsurpassed accuracy.

8 x 6mm Open Placido type

vs. Medmont Closed cone Placido 13 x 11mm
